Professional Summary

Full Stack Developer building scalable applications with React, Spring Boot, MySQL, and REST APIs. AWS Certified Cloud Practitioner with 400+ DSA problems solved on LeetCode. Eager to contribute full stack and cloud expertise to agile engineering teams.

Education

Heritage Institute of Technology

Bachelor of Technology, Computer Science and Engineering — SGPA: 6.78

2022 – 2026

Kolkata, West Bengal

KSVM Patna

Class XII — Percentage: 91.2

2019 – 2021

Patna, Bihar

Technical Skills

Programming Languages: C, Java, JavaScript, SQL

Frontend Development: HTML5, CSS3, React 19, Redux Toolkit, Tailwind CSS, Context API, Responsive Web Design

Backend Development: Spring Boot, Spring Data JPA, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC)

Database: MySQL, Hibernate ORM, Relational Schema Design, Entity Relationship Modeling

Tools and Platforms: Git, GitHub, VS Code, IntelliJ IDEA, Postman, Linux

Cloud and Integration: Amazon Web Services (AWS), Stripe Payment API, Web Speech API

Projects

EasyStore – Full Stack E-Commerce Web Application — React, Spring Boot, MySQL, Stripe, JWT Jan 2025 – May 2025

- Architected a full-stack e-commerce platform using React 19, Redux Toolkit, Tailwind CSS, and Spring Boot RESTful APIs with end-to-end product, cart, and order workflows.
- Enforced JWT-based authentication and role-based access control (RBAC) for admin and customer roles via a MySQL-backed user schema.
- Engineered a mobile-first UI with dark/light mode, client-side routing, and Context API for global state management.
- Embedded Stripe Payment Gateway for PCI-compliant payment processing and real-time order confirmation.
- Designed normalized database entities using Spring Data JPA and Hibernate ORM with ManyToMany and OneToOne mappings.

Vedika – Voice-Based AI Assistant — HTML5, CSS3, JavaScript, Web Speech API

Jan 2025 – Mar 2025

- Built a browser-based voice assistant in vanilla JavaScript using the Web Speech API for real-time speech recognition and text-to-speech synthesis.
- Engineered a natural language command parser executing web searches, URL navigation, and date/time reporting via voice input.
- Crafted a responsive interface with CSS3 animations ensuring accessibility across desktop and mobile platforms.

Relevant Coursework

Data Structures and Algorithms — Object-Oriented Programming — Database Management Systems — Operating Systems — Web Development — Computer Networks

Achievements

Competitive Programming and Problem Solving

- Solved **400+** problems on [LeetCode](https://leetcode.com) across arrays, linked lists, trees, graphs, dynamic programming, and greedy algorithms.
- Solved **100+** problems on [GeeksforGeeks](https://www.geeksforgeeks.org), reinforcing core computer science and algorithmic fundamentals.
- Achieved **Global Rank 2750** among 34,424 participants in **LeetCode Biweekly Contest 180** (top 8.0% worldwide).

Certifications

AWS Certified Cloud Practitioner — Amazon Web Services — [Verify on Credly](https://www.credly.com/certifications/asmitayush3021/aws-certified-cloud-practitioner)

2024

- Expertise in AWS core services, cloud architecture, security best practices, compliance, and pricing models.
